Bhandarkar Institute Press, Bhandarkar Oriental
Research Institute, Poona 4.

FOREWORD

The present *Index to Commemoration Volumes*, which perhaps represents the very first attempt of its kind, is designed to constitute a useful addition to the bibliographical literature relating to Indology. Divided into Author Index and Title Index, this work has taken into account as many as 129 *Commemoration Volumes*. The Author Index records, on pp. 1-261, 2029 authors from 124 *Commemoration Volumes*, while pp. 262-280 contain 109 additional entries. These latter include the entries derived from the five *Commemoration Volumes* indexed at a later stage as also the entries which were left out earlier through oversight. The Title Index records 4644 articles on a variety of subjects bearing on Indology. Besides articles in Sanskrit, English, Hindi, and Marathi, this *Index* has registered also those in Gujarati, Bengali, Udiya, Malayalam, and Asamia among Indian languages and in French, German, Italian, and Spanish among European languages.

Over 250 *Commemoration Volumes* containing papers of Indological interest have appeared so far in India and outside. No single library in India, except perhaps the National Library at Calcutta, possesses all the *Volumes* indexed in the present work. The best thanks of the Bhandarkar Oriental Research Institute are, therefore, due to the libraries which lent some of these *Volumes* for its use. The earliest *Volume* indexed here was published in 1888 while the latest appeared in 1957. Thus the present *Index* furnishes a bibliography of Indological research embodied in 129 *Commemoration Volumes* which have been published in India and abroad in the course of the last 70 years.

The Post-graduate and Research Department of the Institute undertook this project in 1956. Since then there had been frequent changes in the personnel of the Research Fellows who were called upon to collaborate in the work in its different phases from the preparation of the index cards to the correction of proofs. This

naturally resulted in the lack of proper coordination and the consequent occurrence of some slips, deficiencies, and misprints in this publication. However, an index of this kind has long been a definite desideratum for students of Indology, and the present *Index*, with all its defects and shortcomings, will, it is hoped, provide that desideratum in some measure.

Bhandarkar O. R. Institute, }

1. The first part of the book is devoted to a general
survey of the subject, and to a discussion of the
principles which govern the action of the
various organs of the body. It is in this part
that the reader will find the most important
facts of the subject, and the most interesting
specimens of the author's style. The second
part of the book is devoted to a detailed
description of the various organs of the body,
and to a discussion of the diseases which
affect them. It is in this part that the
reader will find the most valuable information
on the subject, and the most interesting
specimens of the author's style. The third
part of the book is devoted to a discussion
of the treatment of the various diseases, and
to a description of the various remedies which
are used in their treatment. It is in this
part that the reader will find the most
valuable information on the subject, and the
most interesting specimens of the author's
style. The fourth part of the book is devoted
to a discussion of the various diseases which
affect the various organs of the body, and to
a description of the various remedies which
are used in their treatment. It is in this
part that the reader will find the most
valuable information on the subject, and the
most interesting specimens of the author's
style.
